

# for your:OFFICE

services for offices and small businesses

✓ reliable and high performance

✓ all services from one provider

✓ inexpensive phone calls with free calls in the network of Slovanet and additional services

## Use reliable and efficient tools for your business

We know that the **telephone, internet, e-mail, web, computer protection** and other services are an indispensable part of your everyday office or business activities.

Take the opportunity of the **state of the art telecommunications network connected with high-performance connectivity** that we have built in your office.

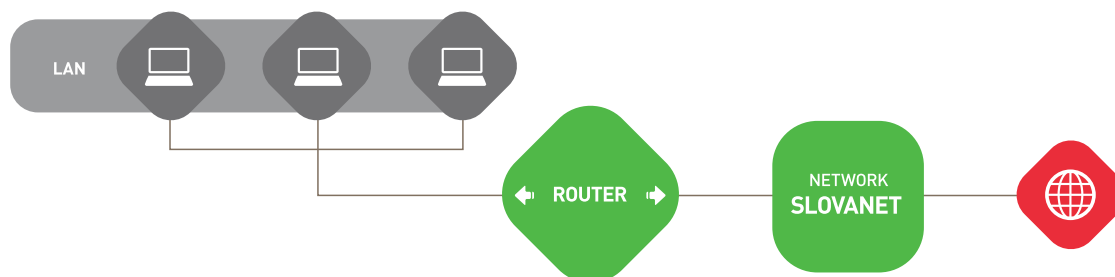

You can now use its benefits and enjoy high-quality Internet, phone calls and other services at a great price.

## Connect through internet:OFFICE

Make use of high-speed Internet for your work, **with guaranteed higher levels of speed and quality** compared to programs for general household.

## Benefits of the service:

- High performance internet for several users simultaneously
- Fast connection, superior technical support and customer care
- We'll provide you with a reliable state-of-the-art device for you to connect, without the need to buy, set up, or perform any maintenance
- Easy and fast future scalability of performance and services (telephony, TV, security, etc.)
- Good price/quality/performance ratio
- Without hidden restrictions or extra charges
- Guaranteed SLA

With the optional inexpensive phone call program **voice:OFFICE** you can make free calls within the network of Slovanet!

A fixed phone line is an integral part of the contacts of a trusted company and office. However, it is not only a necessity of your company image, but you can also save significantly by making active use of it. You can make free calls within the Slovanet network and calls into other networks and abroad at inexpensive prices.

You can easily transfer your fixed line phone number to Slovanet from any other provider! No need to change anything on your leaflets or business cards!

## Possibility of **iptv:OFFICE** TV reception

- Choice of 3 TV packages
- User-friendly interface
- 7-days archive of selected channels
- EPG (electronic program guide)

**Subscribe also to the voice: OFFICE phone service, together with Internet from Slovanet and you will get:**

- A calling program that includes a modern cordless Gigaset phone starting from 2 EUR ex. VAT/monthly
- Easy to connect - using the cables of your internet network - and you can also keep existing phone numbers
- High quality voice transmission thanks to VoIP HD technology
- Low procurement costs - without the need to buy expensive equipment and easily expandable as your business grows
- Free calls within your company and within the network of Slovanet, inexpensive calls to other fixed or mobile networks and abroad
- State of the art additional services (CLIP, call forwarding, log of received/missed calls)
- Free overview of phone calls and telecommunication costs control

## TAKE ADVANTAGE OF ADDITIONAL SERVICES

- e-mail services and webhosting
- cloud services from the product offering cloud:LINK and data storage "Biznis Aktovka"
- static public IP address and more
