✓ wide range of licensed TV channels

Television services for your business

Enhance the comfort of your guests and visitors with professional TV services **iptv:LINK**.
Whether you run a café, an accommodation or health care operation, high-quality TV will add to your prestige and make you stand out from your competitors.

With **iptv:LINK** solution, you can offer your customers:

■ a varied range of license-settled channels,

■ intuitive user interface,

■ electronic program guide (EPG),

■ possibility of extension to complex Property Management System.

The television services provision in public or commercial spaces also entails a number of administrative and legal obligations. With **iptv:LINK**, however, we can handle them for you. We will take care of legal relationships with TV channels broadcasters and all related reporting.

Our experts monitor availability and functionality of the service 24 hours a day, 7 days a week. At the same time, 24/7 technical support is ready to help you with any errors or problems.

New form of interaction with your guests

iptv:LINK solution provides you with comprehensive television services, scalable according to size of your business and your actual needs.

Additionally if you expand your **iptv:LINK** solution with innovative system for delivering targeted information and interacting with your guests. Additional Property Management System brings you many advantages:

■ provision of targeted information about your operation, services, and current offers directly on your TV screen,

■ personalized user interface in multiple languages,

■ offering and sale of additional services via TV, including visitor's current balance, thanks to integration with your billing system,

■ individual communication with selected customers via messaging or satisfaction surveys sent on TV,

■ possibility of simple check-out via TV,

■ easy and flexible solution administration from web administration interface,

■ and many more.
